

Dear Patient,

Thank you for scheduling your surgery with us. Once your procedure has been scheduled, it is **imperative** that you complete your medical questionnaire. Failure to do so may result in last minute delays and/or cancellation. Having your information completed well in advance allows a registered nurse and/or anesthesiologist to review and confirm receipt of any additional requested healthcare information.

Your medical history is a critical element of providing safe patient care. We wish to provide you with a method of ensuring we get accurate information directly from you in the privacy of your own home.

Please go to or click on the following link to complete your Pre-operative registration and medical history.

<https://scfc.epreop.com>

By completing the online form, you will obtain the following benefits:

1. A faster registration/admission process by eliminating repeat interviews.
2. Avoid delay or cancellation of your surgery by ensuring all necessary tests are completed beforehand.
3. Improve postoperative outcomes.

If you need to stop during the online process you will be able to log back in and continue where you left off until you complete the form. Complete what you can; any information you cannot answer will be addressed upon review with one of our nursing/medical staff.

If you do not have access to a computer, you may choose to have this process completed either by our pre-operative screening RN, over the phone, by calling 970-494-4838; or by coming into the surgery center for personal assistance.

This pre-operative screening tool can be accessed by you to update at any time.

Thank you for your assistance with this very important preoperative questionnaire.

Best wishes for a speedy recovery,

The Surgery Center of Fort Collins Staff
